

The Idaho Environmental Coalition recognizes its role as a contributing partner in the community it serves. This sheet provides information to schools and teachers on how they can apply, use, and benefit from the classroom grants available from Idaho Environmental Coalition.

IEC supports STEAM education in local schools. IEC Full STEAM Ahead in the Classroom Grants are awarded annually to teachers for STEAM projects happening in their classrooms. Grants range from \$200 - \$5,000, depending on the scope and impact of the project.

Past Full STEAM Ahead Grant requests include:

- Chromatographs
- Books
- Fluid dynamics experimentation
- Rocket construction
- Visual aids for mathematics
- Robotics equipment
- Videography software
- Classroom science experiments

Any teacher in the IEC service area is encouraged to apply. Please submit requests in writing using the IEC Community Sponsorship Donation Request Form found on our website at idahoenvironmental.com/community/request
